Vol. A
Belchertown, MA

Upon receipt, this book was disbound. The paper was acidic and in poor physical condition.

The book was dismantled and the pages were flattened. The paper was treated with Wei T'o non-aqueous deacidifier. All folios were reinforced with Cerex nylon and Bostik web adhesive.

The book was resewn and backed with linen. Spine adhesive is PVA emulsion. Cover material is goatskin and all boards and flyleaves are acid-free.
